Risk Assessment

Walking Home For Christmas
13–23 December 2018

Safety is the most important part of your walk.

Please fill in the table below and keep for reference as a check list for thinking ahead and minimising any risks for your group, to ensure everyone has a fun and memorable time.

Risks to think about include e.g. Slips and trips, cold weather, wet weather, children, dogs, access for people with disabilities, water (canals, rivers etc.), walking on busy or poorly lit roads, first aid provision, a process if someone gets lost and responsible drinking if your group is going via a pub. Please refer to the Risk Assessment guidance on the website for further information.
